THE EARTH IS FLAT...

...AND TECHNOLOGY ASSISTED REVIEW REQUIRES SENIOR LAWYERS FOR TRAINING.

Once, people believed the earth was flat—sail too far and you might fall off the edge. Today, similar myths surround TAR, fueled by the limits of first-generation systems.

Take the belief that TAR training can be done only by subject matter experts. It delays the review (while you force a senior lawyer to click through thousands of documents) and runs up review costs.

With Insight Predict, review teams can do the training better, faster and cheaper. And that’s only the beginning. Welcome to the new world.
